WATER RIGHTS

Gentlemen:

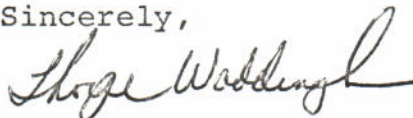

On August 9, 1978, I visited with Don in Salt Lake City and at that time left him a copy of my office Memorandum dated July 22, 1978.

According to a telephone call from Stan yesterday, Don has misplaced same and that each of you would like to have a copy. Pursuant to such request, I am enclosing a copy of such Memorandum with a copy of this letter going to each of you.

I point out that the Memorandum was prepared for office use only, that part of the comments made therein reflect here-say and that part of the Memorandum reflects opinions and conjectures of my own.

Since my meeting with Don, I have been preparing for the hearing and it may well be that I will, at the hearing, be putting on evidence that is in conflict with or supplemental to such Memorandum. Nevertheless, you may be able to use this Memorandum for background information.

Sincerely,

Thorpe Waddingham
